Espanol/Spanish	91-92	109
Miscellaneous	93	110

Our Super and Windless flags are of the best quality in advertising flags you'll find on the market. Dye-sublimated in bold colors on a 140kg super-knitted polyester and built to withstand high winds. Measuring 11.5ft x 2.5ft, this flag demands attention when viewed from near or far.

The Super flag features a slight-curved sleeve and free-flying edge, allowing the flag to draw attention without wrapping around the pole. Assembly is easy, with the reinforced sleeve sliding over the Super pole slight-curved top.

The Windless Banner flag is an alternative option if you prefer your advertising flags to fly without depending on the wind to hold it up. Featuring a curved sleeve, reinforced to slide intact over the Windless pole curved top.

Don't see the flag you need? Let our designers create a custom flag for you. Please view page 127 for more info.

**For Hardware & Accessories , please view pages 119-121**
